# GROOVE IS IN THE TONGUE

KA105 PROJECT  
MOBILITY OF YOUTH  
WORKERS

26-30/06/2018  
ANKARA

# *Let's Start!*

*Dear Friends,*

*We are excited to announce our project: "Groove is in the tongue".*

*In formal education, the intensive program, which is generally preferred, does not make it possible to spread the education of values sufficiently in time. For this reason, the transformative power of nonformal education methods will assist youth workers in hate speech. The quality of the converter is very important; for it can only be possible to establish dialogue that passes from subjectivity, and to choose peaceful / productive words. In this context, the main aim of our project is to "come to the peace language instead of hating speech in the youth dialogue with transformative learning theory". Since the approaches and methods to be used in the project will be the theories of Freire and Mezirow - which are radical educators - the sub-objectives of the main objectives headline can be expressed as follows:*

- 1) To identify the elements of "conflict language" that are exposed by young people in terms of societal observation, emotions and needs,*
- 2) To make a qualitative categorization of hate speech in the study universe,*
- 3) To create productive words and rational discourses in the context of categories,*
- 4) To ensure that young people create "conflict dramas" in the direction of productive words and rational discourses,*
- 5) To build diagrams with personal values, specific attitudes and interpretations of young people.*

## PARTNER ORGANISATIONS
