**Latvia (JASMA - Riga)**

## **What is Youth exchange about?**

We have created an international youth exchange which will give development to participants and also enrich our local environment.

Goal of our project is to get valuable skills which are guaranteed thanks to organization and participation in debates where we will have chance to discuss things which are important for us in intercultural environment.

In same time we will spread advertise of great non formal education method and give chance to others to use it also.

Together with our friends from Hungary, Latvia and Czech Republic we will get experience and after it we will share it with Secondary Schools in regions where our organizations are active.

We will create situation where debates are used as method during lessons as thing which is making education more attractive.

Methods: Integration games, Presentation, Reflection groups, Team building, Debate workshop, Debate, Brainstorming, City Game, Work in Group, Exhibition, Evaluation, Mini Open Space, Interview

## **Coordinating and hosting organization:**

HEureka Generator Association has been founded in September 2016 by people with many years of experience in the field of non-governmental organizations. Our members are professional local and international project coordinators, non-formal education trainers and other young people who have been participating in many local and international projects. What we all have in common is the will to be active and act for our local community.

### **Main goals of our association are:**

1. Increasing social activity of citizens;
2. Promoting and spreading the idea of non-formal education;
3. Organizing and supporting different forms of pro-youth activities;
4. Equaling chances for people with disabilities and those endangered by social exclusion;

5. Organizing and supporting activities aimed at preventing social exclusion.

**Our association fulfill its aims by activities such as:**

1. Organizing and conducting local, regional, national and international courses, seminars and study visits aimed at increasing social activity of citizens;
2. Organizing international youth meetings conducted with use of non-formal education methods;
3. Creating new tools and methods of non-formal education;
4. Creating and distributing materials and publications concerning social activity, non-formal education and problems of young people and socially excluded groups;
5. Preparing and distributing publications in the field of conducting courses concerning elicitation of young people, and problems concerning social exclusion.
