Erasmus+ Programme  
of the European Union

**Brno.**  
**For you.**

Today we did an activity many challenges we needed to find the teachers and make a challenge and get a piece of paper. With The pieces of paper we made a cv and we needed to find what was wrong in the cv.

After we needed to make a golf club with paper and tape and move the ball around a marked course. Then we had and lunch we all ate a good plate of spaghetti. After lunch break we presented the cv in front of the other groups. Then we had a break for 30 minutes. Then we began creating the workshop activities. In the evening we did a exciting game where we competed with the other participant countries. I felt the day flew by because the activities were exciting and fun.

So today we started with two very good energizer by Inês, Igor and Ricardo from the Portuguese group, next all the groups finished the preparations for their workshops.

Portuguese group did their workshop about social inequality and cultural diversity, Maltese group did their workshop about language barrier, Czech Republic's group did their workshop about getting to know Czech Republic, Estonian group did their workshop about quizzes.

At the end of every workshop's the groups who wanted to hear a feedback, they did and those who didn't, didn't.

After dinner we all gathered in the venue and we had an open space so some of us went to watch a movie, do bracelets, go to sleep, board games, swim in the pool, drawing, play cards... anything they would like to do and that's it for the 30 August, Wednesday in Erasmus+ Step forward, Czech Republic, Orientka.

In the morning we had breakfast and then we had a high ropes activity. We really enjoyed this activity because it was adventurous and everyone tried their best.

Later we went for a walk in the forest and had lunch. In the afternoon we had a 'break the codes' activity to learn more about Erasmus projects. Then we had some energizers before dinner. In the evening we had an open space, in which we played games, made crafts and ate pancakes made by the Portugese group.

At the end of some projects, you think that there could even be a few more days, but eventually everything comes to an end. So is today, when we have our last day together. We started with Follow up and after lunch we took a look back at this project together. A lot has actually been done in these 5 days. Then we pulled the ends together and at the end of the day, everyone got a Youthpass, which could be used, for example, at the university. And then the goodbyes began and the Estonian group was the first to leave. This is the end of our project and I, as a journalist, enjoyed today. It was nice to see a great connection between each other and extremely happy faces. I thank you for this and always be happy, it can't be that difficult!
